Module 2 List of Readings

This list is for reference only. It shows the reading assignments from textbooks (T), the *Global Civilization Reader* (R), and the *Study Guide*(S). Each lesson takes about the same time as one day's class and study time for two university courses.

Students are not expected to read every selection with care. They should skim many, glance at some, and read others intensively. Details are given in the daily study guides. Most lessons list several short selections from a range of writers. Some lessons offer a choice of readings on various cultures and religions, so students may focus on their own interests. Selections from Operation World are optional.
